

PRO-VAC B-150 BREATHER

Description:

- Medium weight non woven PET breather/bleeder
- Good drapability and works well with single curvature and complex parts
- Good for all low pressure production process and can be used in multiply layers to increase the flow capacity.

Technical data:

Part number	PVB-150		
Mass per unit area	150	g/m ²	ISO 9073-1
Thickness at 2 kPa	1,8	mm	ISO 9863-1
Tensile strength	225 / 290	N	ISO 9073-3
Elongation at 100N	40 / 50	%	ISO 9073-3
Melting point	250	°C	
Maximum use temperature	210	°C	
Standard roll length	95	m	
Standard roll width	1,52	m	
Composition	100% PET		

*rolls can be slit to specific widths upon request (minimum order will apply)

Packaging and storage

Store in original packaging
